

KAVI BHARATHI VIDYALAYA

A School with a Difference

AT KAVI BHARATHI VIDYALAYA a CBSE school, it is our sincere effort to synchronize the various functions of education so as to make our students physically sound, intellectually alert and morally up-right. There is a provision for thoughtfully designed co-curricular activities to impress upon the students the need to strike a balance between personal longings and social obligations. The Co-curricular activities serve to provide a competitive edge and promote active social interaction and inculcate interest in a variety of other pursuits alongside the standard school curriculum. In addition, they aid in promoting leadership, healthy recreation, self-discipline and self-confidence. At Kavi Bharathi Vidyalaya, the teaching fraternity is sincerely devoted to transform the very ambit of education and make it an effective means of development and social change.

This initiative has led us to be a part of the International Schools Award (ISA) instituted by The British Council in India. We invite you to become part of this exciting, innovative and international partnership project between KBV and your esteemed institution. The ISA partnership aims at enhancing the international networking between various countries in field of education. We aim at working together on few topics of mutual interest for the age group of 5 to 14 years. This partnership will help the participating institutions to develop and exchange ideas across borders and strengthen our educational initiatives. This will also offer learning experiences to both teachers and students. Schools who commit to be partners in this innovative project will be involved in a range of exciting interdisciplinary activities and projects.
